EXPERIENCE

HURON | Web Developer | ASP.NET, REACT
August 2023 – Present | Bengaluru, IN

- Developed CRUD operations for both shared modules and internal systems, focusing on efficient data retrieval and manipulation. Wrote optimized SQL queries and efficient code to ensure high performance and smooth data handling.
- Configured and implemented roles and rights to regulate user access, ensuring each user was granted rights only to the data they were authorized to view.
- Debugged issues using AWS Lambda and CloudWatch logs, tracking errors and resolving them.
- Developed validations, taking edge cases into account and implementing error handling.
- Worked on the React frontend, implementing dynamic and user-friendly interfaces to enhance the overall user experience.

PROJECTS

FOOD ORDERING WEBSITE | asp.net, React, HTML, CSS
December 2023 | Bengaluru, IN

- Provides restaurant owners and admins with a comprehensive dashboard to manage orders, update menus, calculate revenue, and monitor sales.
- The food ordering website includes a login page for user authentication, a categorized menu for easy browsing, and an about page with restaurant details. Users can add items to the shopping cart, review selections, and place orders by confirming items and entering delivery information.
